Commitment

We believe that we have to build a close working relationship with our clients. Most of our initial meetings with new clients involve an informal discussion about their company and areas where we may be able to support.

Hi-Definition Four Colour Printing

Printing is integral to promoting your business. It represents a clear identity for your company, helps communicate your services and strengths. Simple or complex, quality is the key ingredient. we print nearly every order with High Definition Reproduction. This means your photos and text will be printed really clear and defined. If you're the curious techie-type, we print at 340dpi (industry standard is 175dpi), and use a patented XM cross-modulated screening technology to achieve these results!

Environment

We care about you and we care about our planet. Our print facility has been BSi assessed and has received certification for environmental standard ISO 14001. All our processes are constantly refined to ensure that we minimise waste. What waste we do produce, we separate into distinct streams for easy recycling or reprocessing. We compact all of our waste paper to minimise transportation, prior to being recycled. Our printing plates are recycled and our used chemicals are disposed of responsibly. We use vegetable-based inks, pumped straight from large drums, rather than smaller cartridges in wasteful packaging.

Other services

We also offer design, exhibition services, web, stock management and logistics. Please call us on **01926 614488** to discuss your requirements!.

Client | Nautilus

Product Catalogue

We were asked to print a 24 page (238mm x 210mm) Product Catalogue, from supplied artwork and despatch to their national distribution centre within 10 working days. It was further enhanced by a 4 page gloss laminated outer cover and the total cost for 5000 units was only £2975.

Client | MCS

Corporate brochure

Having already re-branded MCS Group earlier this year, we were tasked with designing and producing their first company brochure. Working closely with the client and supplying onsite photography, helped with the success of this project. The A4 brochure was produced as a 12 page silk booklet, with a 4 page matt laminated cover and the total cost of the print and design for 1000 units was only £1965.

Client | Martanne | Encraft

Large Format / Exhibition

Martanne | Print A1 size gloss posters for insertion into an A-board for their 6 local salons.

Encraft | Design and print a series of pull up exhibition stands.

Large Format materials: Gloss, Satin, Canvas, Backlit Film, Pop Up Film, Window Vinyl. We also have a mounting & laminating service available.
